Introduction

This Astrological Child Report has been designed as a guide for Harper Beckham's parents, with a special commitment: to help with Harper Beckham's growth and cultural upbringing, to emphasize and strengthen her assets, and to alert the parents to mistakes or possible problems that Harper Beckham could face in her life.

Chapter 1 describes Harper Beckham the way she really is (position of the Sun), and the way her personality is expressed (Ascendant sign). Chapters 2 and 3 describe the influences linked to her mother and father respectively, which DOES NOT mean a description of their personalities, but the way Harper Beckham sees them, experiences them, and which characteristics she takes from each one. In the astrological chart of a brother or sister, the description of parents could be different due to the individual's perspective. Chapter 4 completes the sequence of the description of Harper Beckham's temperament, focusing her mind, her attitude toward education, and her intellectual capacity.

Chapter 5 describes Harper Beckham's destiny, her vocation, her profession, and the probability of success in the material world. In order to get an appropriate view of Harper Beckham's vocational possibilities, it will be necessary to combine what is in this chapter plus what is in Chapter 1 and any other relevant information in the report.

Chapter 6 analyzes the conditions of Harper Beckham's health; some tendencies or possibilities to physical diseases are mentioned, which DOES NOT mean that Harper Beckham is going to suffer from them, one by one. It does mean that those are her weak points and she is inclined to those possibilities. As a complement, some recommendations for Harper Beckham to have better nutrition are mentioned. PLEASE CONSULT A PHYSICIAN REGARDING ANY PHYSICAL PROBLEMS THAT YOUR CHILD MAY HAVE!!! FOLLOW YOUR PHYSICIAN'S ADVICE AND ANY MEDICATION OR THERAPY THAT HE/SHE RECOMMENDS!!! ASTROLOGY SHOULD NEVER BE USED AS A SUBSTITUTE FOR PROFESSIONAL MEDICAL ATTENTION!!!

Finally, Chapter 7 describes the astrological influence of the outer planets which affect all the children who were born in the same period of years, producing common ideas and behaviors and subsequent generational characteristics.

It is probable that you may find some contradictions in the report; this is because some planets may be beneficial in a certain area of life while other planets may be less helpful or even harmful. This means that Harper Beckham may have both positive and negative experiences in the same area. You need to draw on your intuition and common sense to come to your own conclusions. But remember that every child, no matter the sign he/she was born in, needs LOVE in order to grow up in the right way.

*** Chapter 1 ***

General description of the child: essential nature and personality. Physical body and childhood.

Sun in Cancer:

The Cancer child is very sensitive and moody. She can laugh and cry many times during the same day. Harper Beckham is very perceptive and is fascinated by the world around her, always trying to discover new things. She is attracted to all the colorful images she sees and these images will stay in her mind forever. This child is delicate, gets scared pretty easily, and will probably need a light on at night. Her emotional world is vast and she has a great need to give and receive love. At a young age she takes on the role of protector and she usually has pets. She loves to feed them and takes care of them with great dedication and delicacy. Children of Cancer are very good doctors and nurses.

The main influence for Harper Beckham is the home, and she has a special relationship with her mother. She may depend on her parents and brothers or sisters longer than other children might. She can be very shy and sometimes she does not like to be around people. You do not have to force her or compel her to do something. She has a delicate sensitivity and will always remember any bad treatment she has received, which could cause problems or traumas in the future. She is very aware of what is going on around her, so it is very important not to quarrel when she is there, or she could feel guilty about it. Though she is docile, quiet and tender emotionally, it is not easy for her to follow other peoples' rules. She is very individualistic and independent in her way of thinking. Harper Beckham usually gets what she wants and sometimes she is a sort of spoiled child. But if she does not receive the love and tenderness she needs, she could become a rude and lonely person.

She has a bright imagination and it is very probable that she will meet friends of the same kind to play with. She also shows some tendencies towards the arts and creativity in general, especially music. Teachers might complain about her stubbornness or that she is a day-dreamer. Usually when Cancer children get hurt, they keep quiet instead of letting everybody know what happened.

Harper Beckham gathers strength from nature. She would be very happy sowing seeds and watching them grow. She is usually in a good mood and communicates her joy to others. You do not have to worry about her bad moods; they will disappear quickly. She keeps all the things she loves. Even as a grown-up she will still have her toys. This is true also with the things of her heart, including her family, her friends, the neighborhood, the city, etc. She loves to collect things and she is very fond of history. No matter where she lives, she will always keep her memories very fresh. That is why her parents should keep her things, her books, even her own room the same after she leaves home. Only when she feels emotionally complete will she show her authority naturally and become a leader. Girls of Cancer could have a stronger personality than boys of Cancer, and they will be the leaders in their homes. Because a Cancer child develops a deep love for her family, she will always be willing to assist them. All the love she receives from her parents will work as an investment, as she will give it back to them in larger amounts.

Leo Rising Sign:

Harper Beckham will make everybody listen to her. Her voice will be strong and its power will be expressed through her whole body. A vital energy will be evident in her physical body all through her life, therefore she does not have to be afraid of any kind of illness. Her disposition will generally be positive and outgoing. Harper Beckham needs lots of attention, and she will try hard not to go unnoticed. Her charming smile and her affectionate openness will be her seductive weapons to win over her unprepared parents. She was born to command and she will show it very early. As she grows, she will establish her "kingdom" by conquering the hearts of the rest of the family. Harper Beckham's pride is so great that even when hurt, she will not show the pain. Her heart is very noble, she loves good causes and she will fight firmly against injustice. If her Sun (as shown above) is located in Cancer or Pisces, a Leo ascendant will help give her more strength in her convictions, her vitality and her courage. She will be very stubborn, especially when angry. Harper Beckham will have artistic abilities, and you will probably see her acting (on and off the stage!). Her manner will always be dramatic and exaggerated, so most of the time you do not have to worry when she says she is suffering on account of something. She will also have a great sense of humor and will fill the house with joy.

Harper Beckham's childhood is ruled by the Sun, center of our solar system, and she will feel that her home is the most important thing in life. She will be very proud of her family, and if one of her parents is socially well-known, this will increase her pride. Harper Beckham needs to admire her parents, but her parents must not create an unreal image of themselves. Sooner or later she will discover that it is only an image and this will only destroy her own confidence. The Sun can either give her a luxurious life, or the idea that it is important to belong to a higher class, but either way, she will focus her goals on material success. Harper Beckham will prefer expensive objects and name brands. Her parents will have to encourage her innate spiritual values, like sincerity, fidelity, etc. though humility will be against her nature.

She will not be very happy helping with chores at home; she will feel she was not born for that. She can also experience periods of laziness when she will demand too much attention. If one of her parents is a bit weak, and submits to Harper Beckham's caprices, she will lose respect for the parent. It is very important to be firm with her, but it is even more important to be fair; for example, the rules in the home should apply to everyone in the same way. If Harper Beckham gets the support and love she needs to strengthen her inner values, she will be a winner in her life.

*** Chapter 2 ***

Maternal figure: emotions, feelings, capacity to love and share.

Harper Beckham will have very deep and intense emotions. She will either love or hate something or someone, with nothing in between. This could make her shy and unable to show her emotions. Harper Beckham will tend to sacrifice her happiness for duty. She will tend to be defensive and afraid of being rejected or of not being accepted. It is very important for her destiny that her parents give her all the love they can. In the future, it will be better for her to get married after the age of 28, when she is emotionally mature. If Harper Beckham does not overcome her inner fears, this astrological position can make her ineffectual in sentimental matters and lonely.

When signing any contract or forming any association, Harper Beckham should be very careful to analyze the details and always read the small print.

***** Chapter 3 *****

Paternal figure: authority, power, capacity to assume responsibilities and to defend oneself in life.

Sun in 12th house:

If Harper Beckham has painful experiences, she may feel responsible for them; as a consequence, she may feel insecure and shy. This lack of confidence in herself will increase if her family is over-protective, or on the contrary, if she gets too much punishment on account of her behavior. If the father does not live up to Harper Beckham's expectations, she may not develop enough self-esteem and confidence in herself to become successful in life. Harper Beckham can start many things and finish only some of them. If Harper Beckham can overcome this last basic tendency, she will be successful in those intellectual activities which require sharpness and talent. Harper Beckham will be very curious and restless; her adventurous spirit will lead her to

new places and people all the time. She will be outgoing and always open to new relationships; as a consequence, she will have some deep friendships and others that are very superficial. She may also follow this pattern in her love life and she may need more than one lover to feel complete!

great energy must be channeled into a creative field. Harper Beckham must learn to develop caution and prudence in her behavior in order to avoid confrontations with others.
